## DIS-10 INSPECTORS *The Professional Choice!*

### Is Mold dangerous?

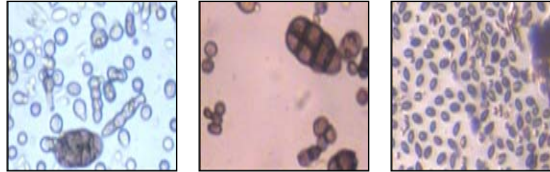

Toxic mold identification is critical to anyone susceptible to the health issues associated with some molds, as well as for the general safety of any client.

While numerous molds do not pose a health risk or hazard some molds produce mycotoxins that may cause flu-like symptoms or other more severe health risks.

## **MOLD ID SERVICES, INC. KEY BENEFITS**

- **RAPID MOLD IDENTIFICATION**
- **FAST, ACCURATE RESULTS IN REAL TIME OR 24 HOURS!**
- **LICENSED, TRAINED, CERTIFIED INSPECTORS IN THE SYSTEM USE OF THE DIGITAL DIS-10 SYSTEM**

Digital Diagnostic Systems, LLC is the developer of the Digital DIS-10 System. This system implements the science of advanced microscopy technology by transmitting digital images, photomicrographs, via the Internet to Digital Diagnostic Laboratories, LLC.

At the lab qualified staff analyze and identify submitted samples and archive the photomicrographs so that in the event of any future litigation, for a specific site, clients will have photomicroscopic evidence.

**Quality-Precision-Trust**  
**The DIS-10 Systems Advantage.**
